Key Skills

- REACT JS
- Redux
- Advanced JavaScript
- CSS
- HTML 5
- GIT
- GITHUB
- Node.js
- Axios
- Express.js
- MongoDB
- CRUD
- REST API
- PYTHON
- MySQL
- OOP's basics
- Upskilling by self-learning
- Excellent communication skill
- Strong problem-solving skill

Education

B.Tech EEE

Communication

Good communication skill in English, Hindi and Malayalam

I am a React/MERN stack developer with ten months experience in various JavaScript tools of React and MERN stack. I have good knowledge in HTML 5, CSS, Advanced JavaScript (ECMAScript), REACT JS - hooks, components and lifecycle, JSX. Also, good knowledge in REDUX, Express.js, Node.js, MongoDB, GIT, GIT-hub, REST APIs, CRUD operations, Axios, Babel, Webpack, NPM, DOM manipulation, JSON Web Token. Familiar with Python, MySQL.

Project Experience

➤ Food Delivery Website - TOMATO

- Responsive website for food delivery using ReactJS, HTML5, JavaScript, CSS for frontend and Node.js, Express.js for backend server management. MongoDB for data storage.
- Features such as sorting food items based on type of food, added items are displayed in separate cart, user validation, checkout options for selected food items, login/signup options, delivery address adding options etc. included in the website using different components and hooks such as **useState**, **useContext**, **Browser Router** etc. for frontend. **REST APIs** such as **GET**, **POST** etc. for data transfer between frontend and server.
- Compatible to different screen size using **Media Queries** in CSS.

➤ E-Commerce Website - SHOPPER

- E-commerce website of clothes developed using ReactJS.
- Different section for men, women and kids are added for better user experience using **useState**, **useRef**, **Browser Router**, **useContext** and reused components.
- Cart items, Login/Signup pages, Checkout page etc. are some of the features in the website developed with advanced JavaScript tools and ReactJs.
- Compatible to different screen size using Media Queries.
